Empire Vale Unveiled.
High and Low Technology Assignment.

As part of our science and technology assessment, the senior class are required to create a Petcha Kutchta style PowerPoint Presentation based on our local region.

A Petcha Kutchta presentation is made up of 20 slides that automatically transition to the next slide after 20 seconds. This design helps to keep presentations very visual and helps keep the presentation fast paced.

**Due:** Week 2. Term 2, Tuesday 10th May, 2016  
**Can parents help?** Of course - but in moderation.

**Audience:** The senior class. Our students will vote the best three presentations to be shown at our assembly, Monday, 23rd May 2016 from 11.30am and could also be used to inspire drama performances.

**High Tech Component:**
The presentation needs to be created on PowerPoint. The presentation needs to have 20 slides, that transition every 20 seconds.

Each student will need a USB stick to transfer their work between both home and school.

At least five photographs within the slideshow need to have been taken by the student using a digital camera or smart phone.

Information can be collected from Google searches however the information needs to be reviewed for its relevance to the topic and if it is from a quality source.

Students are required to type presenter notes, which they will use when presenting their presentation.

**Low Tech Component:**
Students need to access some information for this assignment using books, pamphlets or visiting museums.

Students are highly encouraged to interview members of the community to gain insight into their topic. It is expected that students will interview community members beyond their immediate family.

They must obtain permission from any person who features heavily within the presentation.

**Some Direction:**
The students have agreed that the presentation could be about the following:

- [✓] Our local history
- [✓] A local hero or character
- [✓] The environment
- [✓] Our possible future
- [✓] Our local flora and fauna
- [✓] Our local industry or landmarks

If you have any questions regarding this assignment, do not hesitate to contact me.

Thanking You,

*Mrs Rantissi*
